

T330 Neonatal Trolley

p36

Cogent's T330 Neonatal Trolley is designed to provide a comfortable space to the newborns. There are two sizes for the baby basket and baby pad. The baby basket is made of transparent acrylic. Cogent designed and developed a baby pad especially for newborns. The baby pad is made with 0.45mm thick nylon fabric which is waterproof, stain-resistant, anti-bedsore, anti-heat rash, easy to clean, and has excellent air permeability. The hardness and thickness of baby pad are adjustable by infusing air or small amount of water. The cleanable baby pad has longer life span than the traditional mattress which can save the cost of replacing baby pad. There are several small apertures on the bottom of the baby basket that allow baby to take a shower directly in the basket.

The trolley's frame is electroplated and the weight is very light. The upper frame can do reverse Trendelenburg position, and the lower part can be attached with movable grid steel basket for storage. The trolley is supported by four castors which allow parents or nursing staffs to move the trolley easily and smoothly.

Specifications

- Trolley Frame: (L)87x(W)53x(H)98cm(±1cm)
- Baby Basket:
 - Large / (L)82x(W)45x(H)25cm
 - Small / (L)72x(W)40x(H)20cm
- Two years warranty for stretcher under normal use after date of shipping
- Extended warranty available
