

E850 C-Arm Stretcher

The platform of this stretcher integrates multiple advanced features for enhanced application and control. The full-length C-Arm applicability and collapsible siderail provide maximum access. The features of this stretcher are designed to simplify operation and minimize the need to reposition the patient during X-ray examination. The full-length C-Arm access, collapsible siderail and four foot-controlled pedals increase the flexibility and ease of imaging.

■ Head & foot end ■
